

## Pioneer DDJ-FLX6-GT - Discontinued

Šifra: 16844  
Kategorija proizvoda: DJ Kontroleri  
Proizvođač: Pioneer DJ

**Cena: 77.880,00 rsd**

### Pioneer DDJ-FLX6-GT - Discontinued

Updated design with a graphite color brings a sophisticated look  
The layout of the controls on the DDJ-FLX6-GT is the same as its predecessor, echoing club-standard CDJ + DJM setup, so you can perform intuitively. However, a new matt grey body and the graphite color of the jog brings a sophisticated look.

### Support for VirtualDJ

VirtualDJ is compatible with the updated unit (licenses available separately), which also offers free use of the rekordbox Core plan and Serato DJ Pro. The DJ controller also comes with license keys for the Serato FX Pack, Pitch 'n Time DJ Expansion Packs and TRAKTOR PRO 3 TSI file, which will be released.

With a built-in sound card, all you need to do is connect the DDJ-FLX6-GT via USB cable to a laptop that's running a compatible software and you can start DJing right away.

### All-new Merge FX

Add drama to your sets and easily mix different styles of music. No matter what the BPM or key of the next track is, you can create an exciting transition whenever you want. Simply press the knob and turn it as fast or as slowly as you like to start building up the tension in the music.

**Jog Cutter:** Create pro-sounding scratch effects, one-handed

Turn on Jog Cutter and simply move the jog wheel to apply a professional-sounding scratch effect to the last Hot Cue or playback position you used on that deck. There are 10 different scratch patterns and you can switch from one to another by simply moving the playhead position, shown on the jog wheel's display, to point toward the angle for the scratch you want to use.

### Rebuilt range-leading performance interface

#### Full-size jog wheels with track position display

Pitch bending and scratching feels natural thanks to the large jog wheels, which are the same size as those on the flagship CDJ-3000 multi player. Each one features On Jog Display too, so you can keep an eye on the playhead position.

**Sample Scratch:** Get creative with your favorite sounds

Sample Scratch is a brand-new pad mode in rekordbox which enables you to choose sounds you've assigned to the sampler and load them onto the decks. So, when you want to create a live remix of a track, or simply add some texture to the music, you can scratch with your favorite sounds.

### Main Features

Compatible DJ Software  
rekordbox  
Serato DJ Pro  
VirtualDJ  
TRAKTOR PRO 3 (TSI file available)
