

CASIO Privia PX-S5000BK Električni Klavir + Gratis slušalice

Šifra: 16893

Kategorija proizvoda: Stage Električni Klaviri

Proizvođač: CASIO

Cena: **107.880,00** rsd

The Privia PX-S5000 is equipped with illuminated touch sensor controls that are easy to see and use in any light. The USB audio/MIDI interface and onboard MIDI and audio song recorders enable composers to capture their performances on the fly. The included WU-BT10 adapter adds Bluetooth wireless connectivity, allowing you to use the Casio Music Space app or the speakers to play music from a smartphone or tablet. Two headphone jacks are provided for quiet practice alone or with a partner. For portability and convenience, the piano can be powered either via six AA batteries or the included power adapter.

The PX-S5000 comes with a music rest and an SP-3 sustain pedal. Optional CS-68P matching stand and SP-34 three-pedal unit are available separately to transform your PX-S5000 into an elegant compact grand-piano replacement.

Compact and Portable Grand Piano for Your Home

Modern, minimalist design with luxurious gloss-black finish

Compact and lightweight unibody chassis

88 weighted keys with Smart Hybrid Hammer Action Keyboard (key material: hybrid of wood and resin) for grand-piano touch

Ivory- and ebony-textured key surfaces for grand-piano feel

Multidimensional Morphing AiR Sound Source technology for authentic piano sound

Acoustic-piano simulator: Hammer Response, Key Off Response, String Resonance, Damper Resonance, Key Action Noise, Damper Noise, Key Off Simulator

23 instrument sounds including a legendary Hamburg concert grand piano, electric pianos, and more

192-note polyphony

16W sound system with two independently driven full-range speakers

Illuminated touch-sensor controls

Includes WU-BT10 Bluetooth audio and MIDI adapter

1/4" L/R instrument outputs

Dual headphone outputs (3.5mm TRS jacks)

Expression pedal input for optional SP-34 3-pedal unit

Class-compliant USB port with no drivers or installation needed

2-track MIDI recorder

USB audio recording

Audio/MIDI file playback

2-way power: 4-hour operation with 6 AA batteries or unlimited operation time using the included AC adapter

Designed to work with the Casio Music Space app for iOS/Android

SP-3 sustain pedal is included

Beautiful and Harmonious in All Environments

The PX-S5000's gloss-black finish with golden accents complements any interior design style. Its sleek design evokes a luxurious concert grand piano, in a beautiful case that's barely larger than the keys themselves.

The illuminated touch-sensor controls add elegance while eliminating moving parts, creating a seamless and beautiful top panel. The controls vanish when the PX-S5000 is powered off, leaving a sleek, clean, piano-like finish.

The Smooth Touch of a Grand Piano

The PX-S5000 delivers the genuine touch of a grand piano thanks to the Smart Hybrid Hammer Action Keyboard, which faithfully conveys the nuanced expressions of the player. This mechanism digitally controls the sound response generated by each key and has been designed to have the same hammer feeling as a grand piano. Each of the individual 88 keys has a unique and delicate touch, depending on the keyboard range and how it is played.

The white keys are made from a hybrid structure that uses spruce in addition to resin; and the white and black keys replicate the ivory and ebony texture, enabling the same feel as when you play a grand piano.

Authentically Captures the Sound of a Grand Piano

The PX-S5000 delivers the experience of owning one of the finest piano on Earth—dubbed Hamburg. The piano has its own unique personality and the Multidimensional Morphing AiR Sound Source brings it to life with damper, string, and aliquot resonance, plus subtle mechanical sounds that heighten the realism as you play.

High-Fidelity Sound System

The PX-S5000's 16W, 2-way stereo speaker system delivers crystal-clear sound toward both the player and the audience—with improved drivers creating accurate high- and low-end response throughout their impressive volume range.

Four types of Hall Simulation place your PX-S5000 in the virtual concert space of your dreams, and our unique Surround mode places you right in the center of your music.

Enhanced Headphone Mode

Two headphone jacks allow for quiet play at any time.

Headphone mode automatically optimizes the sound for listening through headphones, creating a more natural listening experience as if the sound were playing through the speakers.

Bring the Live Performance to Your Room with Wireless Functions

The included WU-BT10 Bluetooth audio and MIDI adapter lets you connect to a whole world of MIDI software including the Casio Music Space app and allows you to stream your favorite music through the built-in speakers.

Personalize Your Experience with The Casio Music Space App

Casio Music Space is a free app exclusively for Casio digital piano and keyboard users. When running on iOS or Android devices connected to your Casio piano via USB, the app acts as digital musical score, a music teacher, a live-performance simulator, and as an all-around app to enjoy learning and playing music. The app is for complete beginners, people taking up an instrument again, or anyone who wants to experience a new way of playing. Expand your enjoyment of music by watching, listening, and playing through the app.

MIDI and Audio Recorder Function

MIDI recorder allows you to capture your playing as MIDI song data, which can be played back from the Digital Piano—perfect for piano lessons and practice.

The Audio recorder function enables you to capture your performances as audio files.

Data can also be saved to a USB flash drive as a standard MIDI file (SMF) for later playback or for use with a DAW or other electronic musical instruments.

Take Your PX-S5000 Wherever the Music Takes You

The PX-S5000 can be played anywhere, thanks to its optional 6 x AA battery power.

Optional CS-68P matching stand and SP-34 three-pedal unit can be connected for portable piano authenticity, and the optional SC-900 carrying bag lets you bring your PX-S5000 wherever the music takes you.
