

## Prism Sound Pro Tools HDX Module

Šifra: 16928

Kategorija proizvoda: USB Zvučne kartice

Proizvođač: Prism Sound

**Cena: 59.880,00 rsd**

Two DigiLink Mini ports (primary and expansion) allow direct connectivity with your Pro Tools HDX or HD Native system

Daisy-chain up to four Titan or Atlas units for up to 32 analog input and output channels per port on your HDX or HD Native card

Automatic emulation of Avid HD I/O interfaces provides seamless software integration and convenient host control of interface settings

Prism Sound interface settings such as input sensitivity, phantom power, pad, polarity, high-pass filter, Overkiller, gain, and more are configurable via Pro Tools software and save/recall with the Pro Tools session

### **Prism Sound MDIO-PTHDX Specs**
