volume knob also changes the input. For further convenience, an infrared remote control is included!

Sound Adjustments

With the supplied remote control you can not only switch inputs, power off/on and adjust the volume. You can also fine-tune as you listen. Press the 'Loudness' button to use a default preset or adjust the treble & bass to your liking.

Handmade in Europe

The stylish CNC-machined composite fiber plinth is carefully manufactured to ensure there are no resonant hollow spaces inside. The lightweight and low friction 8.6" aluminum tonearm is optimized for the high-quality Ortofon OM 5E cartridge and will allow it to perform its very best. The new ABS polymer main platter is strengthened with purpose-designed ridges in order to create an ideal, anti-resonant platform for your vinyl. To protect your Juke Box E1 from dust, we also include an elegant acrylic dust cover with adjustable hinges.

Features

- Reworked tonearm & headshell design
- Anti-resonant ABS polymer main platter
- Damped DC motor

- Pre-mounted Ortofon OM 5E cartridge
- Belt drive with silicone belt
- Special feet for effective decoupling
- Acrylic dust cover included
- IR remote control included
- Handmade in Europe

PRO-JECT Jukebox E1 Piano Black OM5e Gramofon sa pojačalom

Speakers

With its range of analog and digital inputs, Juke Box E1 is one of the most versatile offerings on the market. A turntable, a preamplifier, a power amplifier and a BT receiver are at the ready for you. The line output even lets you relay the signal to a 2nd amplifier allowing playback through a headphone amp or a 2nd system entirely. The built-in high-contrast display shows you volume and the selected input. The 32-step digital potentiometer helps you achieve the desired volume. Pressing the
