

Primare SPA25 Prisma Black

Šifra: 16961
Kategorija proizvoda: AV Pojačala i Risiveri
Proizvođač: Primare

Cena: 659.880,00 rsd

Dirac Live Room Correction technology ensures the best possible audio performance with any system in any room

Prisma network player to stream hundreds of music services including high resolution platforms like Qobuz, Spotify, and Tidal HiFi

Roon Ready advanced media management software with future free update

System Configuration

The SPA25 Prisma offers 11 channels of Atmos and DTS X immersive audio processing, with customisable presets and assignable amplifier channel allocation and Front Left / Right analog outputs allowing for:

5.1.4 and 7.1.2 configurations

5.1.2 configuration with bi-amped Front Left/Right channels with speakers that allow for bi-wiring

7.1.4 configuration with addition of a stereo amp for front speakers

The sophisticated adaptive power supply provides for maximum output power per channel of 145/250 watts into 8/4 ohms and 290/450 watts into 8/4 ohms into each bi-amplified speaker, making the SPA25 Prisma the most powerful integrated amp Primare has ever produced.

Additionally, Left Front, Right Front, and Centre channel RCA outputs are available for adding external power amplifiers for those channels.

Seventeen customisable input pre-sets allow for virtually any combination of digital and analog input configurations, with five customisable speaker setup pre-sets allow for a variety of speaker and DSP configurations.

SPA25, NOW WITH DIRAC LIVE

The interaction between your Primare system and the physical layout of your room has a huge impact on sound quality. With Dirac Live® Room Correction you can apply state-of-the-art, patented algorithms to analyze and digitally reduce room impact and enhance speaker performance through your Primare system. Dirac Live delivers a larger sweet spot, accurate staging, clarity, voice intelligibility, and a deeper, tighter bass not otherwise possible. Fully tunable to your preference.

PRISMA Remote Control

SPA25 Prisma will be the first model to include the new PRISMA system remote control, providing IR control

Primare SPA25 Prisma Black

Key

Features

Dolby Atmos, DTS X, and derived immersive audio processing
9 channels of amplification with a maximum total power output of 810 watts
eARC advanced high resolution audio and video HDMI connection system for best system interaction and performance.

for every past and present Primare model:

- Basic TV control
- OTA update support
- Backlit

Our design philosophy

Primare products are informed by our practical design approach, embodied by the Scandinavian design ideal of lagom – that sense of not too much or too little, but just right; everything in balance, proportion, and harmony.

Output Power	9 x 90W 4/8 ohms, 810W max total power
Max Output	145W/250W 8/4 ohms per channel
Bi-Amp Output	290W/450W 8/4 ohms per speaker
DAC	2 x ESS 9026PRO
RCA	x 5 analog inputs, with 7.1 multi-channel input
RCA	x 1 digital input
Toslink	x 1 digital input
USB B	1 x digital input
HDMI	4 x HDMI 2.0b inputs
HDMI	2 x HDMI output, 1 x eARC / 1 x Auxiliary

HDCP	2.2
Processing	Dolby Atmos, 11 channels
Processing	DTS X, 11 channels
Dirac Live	room correction
Prisma	network player connectivity and control
Ethernet	2 x in/out
WiFi	
USB A	x 1
AirPlay2	
Bluetooth	
Chromecast built-in	
Roon Ready	by future update
Spotify Connect	HiFi Ready
PRISMA remote	Primare universal system remote

IR	3.5 mm in/out
12V Trigger	1 x 3.5mm output
RS232	outboard system control port
Dimensions	430 x 400 x145 mm (wxdxh)
Weight	12 Kg
Finish	black
