

PRO-JECT VC-S3

Šifra: 17088

Kategorija proizvoda: Dodatna oprema i održavanje

Proizvođač: Pro-Ject

Cena: 83.880,00 rsd

Made in Europe!

The new magnetic clamp not only seals the record label from cleaning fluid to avoid damage on the label, it also speeds up the whole cleaning process. Place your record on the machine, put on the clamp and you are ready to go - no more tedious screwing of the clamp anymore. The robust easy to use metal arm is mechanically stable and focuses all suction power directly onto the record surface. Paired with new self-adhesive arm strip your records get cleaned perfectly. The large internal container (2,5 liters) collects used fluid and is effortlessly easy to empty. When using Wash it 2 cleaning solution, the fluid will also evaporate in the container, meaning the container will almost never need to be emptied even after cleaning thousands of records. It shows fill-up capacity and guarantees no spillage of used cleaning fluid. The new VC-S3 is made in Europe with high quality materials and an excellent build-quality. With many practical features and excellent mechanical operation, the VC-S3 effectively combines industrial design appeal with an easy solution to great sound from your vinyl records.

Features

- NEW improved cabinet design
- NEW magnetic clamp for quicker cleaning
- NEW vacuum motor with aluminium mounting pads and cathoretic surface treatment
- NEW self-adhesive arm strip for better cleaning
- NEW Wash it 2 cleaning fluid
