### **Pure and simple**

The 707 S3 is the ideal book-shelf loudspeaker. It's slimmer than ever, but it's capable of performance levels above and beyond what its diminutive size may suggest.

### **Sharper detail**

Carbon Dome tweeters are purpose-built for the 700 Series. Delivering a dramatic improvement on the aluminium double dome tweeter, they raise the breakup threshold to 47kHz, for pinpoint imaging accuracy and detail.

### **Truly amazing sound**

Thanks to its composite construction, the Continuum™ cone avoids the abrupt transitions in behaviour that can impair the performance of a conventional drive unit. The result is a more open, neutral performance that delivers voices and instruments with precision and transparency.

### **Inspired by greatness**

The new curved cabinet baffle and individual drive unit pods are inspired by the 800 Series Diamond, and greatly reduce cabinet coloration, ensuring a cleaner, more immersive sound.

### **Size & weight**
