Kategorija proizvoda: Soundbarovi
Proizvođač: Bowers & Wilkins

Cena: 95.880,00 rsd

**Elegant and understated
Panorama 3 looks good
in any environment**

Immersive sound from a single speaker

Thirteen individual, painstakingly positioned drivers, including twin subwoofers, powered by a total of 400 watts of amplification. This is what allows Panorama 3 to deliver the most immersive, most convincing spatial audio ever heard from a sound bar.

Because you want sound all around you

Thanks to upward-firing drive units, each housed in an individual acoustic chamber, Panorama 3 projects tightly focused sound upwards onto your ceiling to deliver the truest, most immersive Dolby Atmos spatial audio effect.

Connected, smart, intuitive and effortless

Enjoy Bluetooth aptX™ Adaptive, AirPlay 2, a host of streaming services and hi-res audio too.

Easy to set up, simple to use

The intuitive app ensures easy network set-up, and HDMI eARC means simple connectivity.

All the sound you need from one elegant component

In addition to twin Dolby Atmos units, Panorama 3 has nine more drivers and two subwoofers. Outstanding performance is assured.
