True 24-bit connection with aptX™ Adaptive
Hear your favorite music and movies as they were meant to be heard, thanks to a true 24-bit connection between left and right earbuds for superior sound quality plus high-resolution wireless audio that adjusts dynamically to optimise performance.

Hear music and movies as the artist intended
Small, yet powerful, two-way drive units in each earbud work just like high-performance speakers, creating rich, immersive sound - from deep and powerful bass to expressive and detailed high notes, and everything in between.

Adaptive active noise cancellation
Advanced active noise-cancellation monitors noise and adapts to your surroundings, so nothing gets in the way of the music you love.

Wireless audio retransmission technology
A transformative Smartcase that also functions as an audio retransmission system, connecting directly to external audio sources such as in-flight entertainment systems.
