### Bowers & Wilkins PX8 Black - Bežične slušalice

"There is a level of clarity and insight here that we haven't heard bettered at this level."

- **What-Hi-Fi?**

"These are exceptional headphones in every regard."

- **T3**

9/10

"Spirited, convincing, and endlessly listenable

### A new reference in headphones

We've never made a better headphone than Px8. A high-resolution 24-bit DSP is partnered with all-new driver technology to deliver outstanding resolution, capable of capturing nuances in your music that may otherwise be missed. This is headphone listening on all-new levels of immersion and realism.

### Angled Carbon Cones

Px8's precisely angled Carbon Cone drive units reduce distortion, resulting in massively improved clarity. Coupled to a fully optimised drive unit 'motor system', with revised magnet, voice coil and surround, the result is unparalleled accuracy and realism.

### Comfort, for longer

Cast aluminium arms and fine Nappa leather trim leave you in no doubt that Px8 is a headphone every bit as special as it sounds. And with 30 hours of listening from a single charge you can enjoy the experience for over a day at a time.

### High-resolution sound with advanced DSP

Px8 uses aptX™ Adaptive wireless technology and powerful Digital Signal Processing to ensure outstanding 24-bit high-resolution sound quality from suitable streaming services. You can also connect to your laptop via USB to enjoy high-resolution streaming.

### Cancel the noise, not your music

Px8's proprietary noise cancellation technology ensures outstanding performance with no impact on musicality. Six microphones work together to deliver the best results, both for noise cancellation and clearer voice calls.

### Size & weight

Net weight	320g
