Bowers & Wilkins PX8 McLaren Edition - Bežične slušalice

McLaren Edition

Celebrating the long-standing, award-winning partnership between Bowers & Wilkins and McLaren Automotive and the McLaren supercars and hypercars in which Bowers & Wilkins has been integrated, the Px8 McLaren Edition headphones fuse McLaren-inspired styling with high-performance wireless sound synonymous with Bowers & Wilkins' flagship headphones.

McLaren inspired

Celebrating a relationship which has been in place since 2015, the Px8 McLaren Edition is finished in elegant grey leather with Papaya orange details inspired by McLaren's supercars and hypercars.

Designed highlights

Integration of McLaren Automotive cues is subtle but stylish, with a Galvanic grey finish and Papaya orange highlights, the latter inspired by the famous Papaya orange which originated on founder Bruce McLaren's early racing cars. A discreet tone-on-tone McLaren logo on the headband completes the headphones' distinct and striking design.

Audio partners

The partnership is built on firm technical foundations, something that has already been recognised with three iF design awards for the system integrations of Bowers & Wilkins in the McLaren Speedtail, McLaren GT, and most recently, the hybrid McLaren Artura, which has again raised the bar for audio performance thanks to close engineering collaboration and optimisation.

Bowers & Wilkins Music app

With the Bowers & Wilkins Music app you can stream your favorite songs direct to your Px8 McLaren Edition, browse our suggested playlists, or let us suggest new tunes for you. We support Qobuz, Tidal and Deezer at launch, with more to follow, but whatever you play, you'll hear the True Sound of the performance - because for us, there's no other way to listen.
