Denon DNP-2000NE Network Player w/Heos Built-in Black Mrežni plejer

Šifra: 17436
Kategorija prozivoda: Network Plejeri
Proizvođač: DENON

Cena: 143.880,00 rsd

Universal playback of digital music files With HEOS® Built-in, connect to your home network to provide near-limitless streaming options.
Play back nearly any digital audio format available from a USB drive.
HDMI ARC Simple, single cable connection to your TV via HDMI ARC input. Also allows direct volume control from
the television or amplifier remote.
Ultra AL32 Processing Experience audio beautifully faithful to the original sound. Ultra AL32 Processing algorithms restore
information that was lost during digital recording.
Quad DAC configuration Using a quad DAC configuration enables an improved, more powerful spatial expression of the
soundstage, decreasing the low noise level and total harmonic distortion.
USB-DAC USB-DAC input allows connection to a computer to access high-resolution audio files, supporting
hi-res up to 11.2-MHz DSD and 384-kHz/32-bit PCM input signals.
High-grade audio components All audio components have been carefully selected and optimized for the best sound quality.
Isolation system DNP-2000NE’s analogue and digital circuit boards are isolated from each other. An independent
power line from the transformer protects the analogue circuit from interference and noise.
Support for major voice control agents Enjoy effortless voice control from the leading voice agents. Speak commands with Amazon Alexa,
Google Assistant, or Apple Siri. Switch between voice agents or pick a favourit

Ultra AL32 Processing
Ultra AL32 Processing utilizes data interpolation algorithms
and supports high-resolution 192-kHz/24-bit PCM signal input.
These algorithms interpolate points that should exist before and
after the points in large quantities of data to achieve a smooth
waveform that is close to that of the original signal.
Carefully restoring data that was lost during digital recording
results in playback sound that is highly detailed, richly expressive
in the lower range, and beautifully faithful to the original sound.

DAC master clock
Because accuracy is the key to performance, the high-quality
master clock is the reference for the four-audio DAC operation,

the network module, and USB-DAC to ensure that the digital audio circuitry performs at its maximum potential.

HEOS® Built-in
With HEOS Built-in technology, enjoy your favorite music in any room of your home for a wireless, whole-home audio experience. Play the same song in every room or select a different song for each connected room—the choice is yours. Enjoy streaming music from your favorite music service or your local music file libraries. With additional HEOS Built-in components, like HEOS-capable speakers, play all your music in one room or many.

Amazon Alexa voice control
Use your voice to stream your favourite music services via Alexa. Ask Alexa to play music, turn volume up or down, pause, mute, and play the next song—all with your voice.
To start streaming with Alexa voice commands, open the Alexa app, select “Skills,” and add HEOS Home Entertainment. Then, go to Smart Home in the Alexa app menu and choose “Devices and Discover” or say, “Alexa, discover my devices.”

AirPlay 2 and Apple Siri voice control
Stream audio from your favourite music services like Apple Music and Spotify from any iPhone, iPad, Mac, or Apple TV. Hear audio perfectly synced to your speakers from AirPlay 2 sources. Use AirPlay 2 in-app or with your voice via Siri.

Control buttons
The center button is play/pause/enter. It determines selection and acts as play/pause on the “Now Playing”screen. Surrounding buttons are directional cursors: up, down, right, left. Left and right buttons work as previous and next, respectively, on the “Now Playing” screen.

Unit (W x H x D mm)	434 x 107 x 421
