Features

Crystal-clear mono audio without latency lasts throughout your whole performance.
The PAD button lowers the input gain to prevent loud input sources from overloading and clipping the preamplifier.
The LOOP OUT design for flexible routing operation.
One stand-alone mix offers a flexible and diverse monitoring experience.

Selectable UHF frequency design to avoid interference easily.
Quick IR sync and one-touch frequency selection for fuss-free operation.
One transmitter base unit can add as many bodypack receivers as you need.
Rugged-built receivers and bodypacks with a sleek design.
Rack-mountable with brackets included in the package.
Up to 164ft/50m free operation range.
Operates in the 900MHz/500MHz range. 902.35-914.6MHz (50 frequencies); 530.05-542.3MHz (50 frequencies).
PTM-11 supports multi-set operation with up to 5 systems in the 900 MHz band and up to 4 systems in the 500 MHz band.
