he APart CMS20T 2-way square built-in loudspeaker is loved by every interior designer for its beautifull shape and perfect sound quality. It can be used as a 16 Ohm or 100 Volt loudspeaker. In 16 Ohm use, you can connect up to 4 loudspeakers in parallel on each channel of a standard 4 Ohm amplifier. For 100 use, the CMS20T is equipped with a high-quality 20 watt 100 Volt transformer with several power tappings. The loudspeaker has a 6 ½” woofer and 1” tweeter. It makes the CMS20T very suitable for the distribution of microphone calls and BGM.

The housing is made of high quality ABS. The woofer is made out of polypropylen, what makes it moisture-proof. The new enforced structure of the woofer cone, results in an even more clear sound.

The loudspeaker is easy to install, due to its simple, quick mounting system (4 screws which are hidden behind the loudspeakergrill, which gives the loudspeaker a modern and striking design).

The standard colour is white. As an option the CMS20T can be painted in any RAL colour (Ref; PAINT-CM). Please note that the minimum order quantity for PAINT-CM is 12 pieces.
