CMSUB8

BUILD-IN SUBWOOFER

The APart CMSUB8 stereo ceiling subwoofer is designed to reproduce a fat and deep bass. Featuring dual 8 ohms coils and incorporated passive filter circuitry, the CMSUB8 can be used in almost any situation where extra bass is needed at low to medium sound levels. This subwoofer is the ideal partner for all kinds of satellite speakers: small to medium APart CM speakers (CM3T, CM4T and many others) but also small cabinet speakers, such as the APart MASK4(T). It has a discrete design, identical to APart 8" ceiling speakers, and thanks to aluminum grille it is also suitable for use in humid conditions.

Speaker type : 8" dual coil, coated paper cone

Impedance : 2 x 8 ohm

Frequency range : 50 - 200 Hz (passive filter included)

Program power : 2 x 80 watts

Sensitivity : 88 dB/1W/1m

Grille : aluminum

Dimensions : 246 x 106 mm

Cutout diameter : 226 mm

Mounting : depth 97 mm

Weight : 2.1 kg
