Same size, even more detail
Ideal for smaller spaces, the 607 S3 uncovers incredible insight and dynamism in your music. Using the same game-changing technologies as its siblings, 607 S3 is perfect for enjoying your music or providing surround sound as part of a home theatre system.

Layered, beautiful details
The new 607 S3 introduces our all-new Titanium Dome tweeter, which combines exceptional resolution and insight with smooth, refined high-frequency reproduction. The result? An accurate and immersive insight into your favourite music.

Truly amazing sound
607 S3 introduces our new and even more acoustically transparent tweeter grille mesh, first developed for our revered Signature models. Alongside the new Titanium Dome tweeter, the resolution and realism is exceptional.

Precision and transparency
Thanks to its composite construction, the Continuum cone avoids the abrupt transitions in behavior that can impair the performance of a conventional drive unit. With 607 S3, experience a more open, neutral performance that delivers voices and instruments with precision and transparency.

Upgraded speaker terminals
Derived from the speaker terminals recently introduced in our 700 Series range, the speaker terminals on the new 607 S3 feature an improved layout and a cleaner signal path between your amplifier and your loudspeakers.

600 Series
The essential loudspeakers for music lovers.
