The smaller scale of the ST212 gives players the power of the authentic Marshall tone, in a more compact design.

With G12M-65 Creamback Celestion speakers, the ST212 recreates the vintage tones that so many know and love.

Handmade in our UK factory, the ST212 is beautifully crafted with iconic touches that hark back to the 1960s.

The ST212 is an angled cab to provide greater sound projection and a smaller footprint.
