Excellent CD Playback
The JBL Classic CD350 boasts impressive features that guarantee high-quality sound reproduction. The CD350 is compatible with CDs, CD-Rs, and CD-RWs, unleashing the full musical power of your music collection. Despite the rise of music streaming, nothing can beat the immersion and thrill of listening to your music on a first-rate CD. With a frequency response range of 20Hz to 20kHz, the JBL Classic CD350 CD Player ensures that every nuance of your music is heard with clarity and precision.

High-Quality Digital Audio
Supporting FLAC, WAV, AAC, WMA and MP3 file formats, the CD350 CD Player delivers excellent digital audio support, including a USB drive input, allowing you to enjoy your digital music library. With 24-bit / 96kHz sampling rates, you can enjoy high-resolution audio with thrilling sound accuracy. At only 12W power consumption, the CD350 is an energy-efficient option for your home audio system. It also features luxurious walnut veneer side panels that integrate seamlessly with the rest of the JBL Classic Series.

Great Connectivity and Control
Easily connect the CD350 to your home audio separates with the digital optical and coaxial outputs. You can even pair the CD player to an amplifier or receiver using the stereo analogue outputs and seamlessly integrate the CD350 into your HiFi system. The CD350 is harnessed with easy-to-use button controls on the front panel so you can comfortably play/pause the music, open/close the CD tray, and skip between songs. You can also manage the CD350 straight from your sofa or armchair using the JBL remote control.
