Pioneer DJ is undoubtedly one of the leading companies when it comes to creating DJ equipment. With a plethora of DJ controllers under their belt, they’re always pushing forward with inventive products for professional DJs and beginners.

This shows with the Pioneer DJ DDJ-REV1 which is boasting a brand-new battle-style layout that’s easy to use and perfect for DJ enthusiasts to start playing like a pro. The REV1 undoubtedly pulls its layout inspiration from the high-level Pioneer DJ DJM-S series with its EQ controls, performance pads and lever FX paddles that sit in the mixer section to parallel the DJM-S Series mixer design.

However, there is always a risk of damage to the machine, which could render it completely useless. This is where we come in!

With this new updated battle style layout on the DDJ-REV1 we have researched, designed and custom-moulded right here in the UK to perfectly fit the contours of this exciting unit.

We have gone through years of research to create the perfect cover to protect your DJ controller. Our super durable polycarbonate shell features extreme durability and offers the highest degree of protection. Not only that, but with the slim form-fit, they fit easily into a gig bag or other ancillary equipment case.

With our Decksaver cover, you will never have to worry about your Pioneer DJ DDJ-REV1 getting damaged anytime soon!

This cover is a Light Edition (LE), which is brought to you at a more cost-effective price, but still shields delicate knobs, switches, pads and internal components from dust, liquid and accidental knocks.

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
