with different connectors to fit all our phono preamps. If you want to use your X1 B with a Phono Box S3 B you need a „Connect it Phono Mini XLR / Mini XLR“.

Balanced

A perfect match!

Pair your X1 B with one of our new balanced Phono Boxes and benefit from a fully balanced signal transmission to your phono preamplifier. Check out our new Phono Box S3 B & DS3 B for further information.

PRO Balanced

NEW Balanced Cartridge

Now with pre-adjusted Pick it PRO Balanced cartridge. (Upgrade offer available to all customers who purchased the X1 B with Pick it S2 MM - contact your dealer!)

X1b Tonearm

8,6" Carbon-Aluminium Tonearm

Finished as a one-piece, with no resonance-inducing headshell, the X1 is available with premounted high quality Pick it S2 MM cartridge. Its superstiff and perfectly damped construction provides a perfect tracking of the record groove.

X1 Motor

Motor suspension

Stainless steel platter-bearing with soft brass bushing and teflon mirrors together with a new motor suspension for better decoupling of the motor vibrations to tonearm and chassis ensure lowest rumble and noise.

Real high-end features.

Azimuth & VTA

Fully adjustable

The X1 comes with fully adjustable Azimuth & VTA. It offers you the possibility to modify your X1 as you want it.

Metal Feet

Damped & height adjustable

The three height adjustable damped aluminium feet guarantee the perfect stand & massively reduce risk of acoustical feedback.

PRO-JECT X1 B Walnut Pick It PRO B Gramofon sa balansiranim izlazima

Balanced

Unleash the full power

Simply upgrade your X1 B to a MC cartridge, connect it with one of our new True Balanced Phono Cables to your phono preamp and benefit from an interference-free signal with increased dynamics & lower noise level.

Mini XLR Output

One cable connects it all

We offer a wide range of balanced phono cables

True
