Mid-Side Microphone Caspsule for H5, H6, Q8, U-44, and F8n

Welcome to “Mid-Side” recording, a whole new level of precision in your ability to shape sound. The MS Capsule contains dual mic elements – a forward-facing, unidirectional mic (the “Mid”) and a side-facing, bi-directional mic (the “Side”). Together with the onboard MS decoder provided by the H5 and H6, they capture a fully mono-compatible stereo image that can actually be adjusted after recording – ideal for film, video, and television projects.

The MSH-6 mid-side stereo microphone capsule is compatible with the Zoom H5 and H6 Black Handy Recorders, U-44 Handy Audio Interface, Q8 Handy Video Recorder, and F8 MultiTrack Field Recorder, as well as the ECM-3 extension cable for Zoom microphone capsules.
