IsoAcoustics Aperta Sub XL

Šifra: 18724
Kategorija prozivoda: Hi-Fi Pribor Ostalo
Proizvođač: IsoAcoustics

Cena: 20.412,00 rsd

Dimensions (W x D x H)
14.5” x 16” x 1.5”
(368mm x 406mm x 37mm)
Weight capacity
160lbs (72.6kg)
Includes
1x Aperta Sub XL + 4x Carpet Discs

Low profile, innovative shape

The Aperta Sub Series has a low-profile design and is compatible with front firing and side-firing subwoofers. The innovative shape allows the Aperta Sub Series to be positioned directly underneath the subwoofer cabinet without interference with the existing subwoofer feet.

Carpet disks are included with the Aperta Sub Series for use on carpeted surfaces. The carpet disks provide a strong connection through the carpet to provide a solid foundation for the Aperta Sub Series.

More bass, less rattle

We are hard-wired to pick up bass rhythms more than other tones, and low bass frequencies allow the listener to feel a deep syncopated connection to their favorite music or movies.

With a large driver producing low frequencies, the subwoofer creates a large amount of energy that can excite the supporting surface, interfere with other audio components and annoy your neighbors.

The Aperta Sub provides a high degree of subwoofer isolation and cleans up the muddy low frequency sound, resulting in tighter bass response and greater clarity. The unique patented isolators are directional and are designed to be positioned with the logo facing forward, to resist lateral deflection and oscillations, for greater accuracy and focus.

The Aperta Sub is a must-have for home theater lovers, HiFi enthusiasts, and bass junkies of all ages and is especially beneficial for those who live in apartments or condos.

Greater Bass Definition

The Aperta Sub provides a high degree of subwoofer isolation and cleans up the muddy low frequency sound, resulting in tighter bass response and greater clarity.
Reduces Internal Reflections
IsoAcoustics isolation prevents the subwoofer vibrations from reflecting on the supporting surface,

eliminating muddy bass smear and revealing greater clarity and definition.
Prevents Energy Transfer
The Aperta Sub decouples the subwoofers from the supporting surface to prevent the physical transfer of energy that excites the supporting surface, causes room rattle and disturbs your neighbors.
Patented IsoAcoustics Isolation
Tested at the National Research Council of Canada (NRC). The IsoAcoustics award winning design provides superior isolation performance.

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
