PRODUCT DESCRIPTION

PROCESSED ACTIVE SPEAKER 700W + 200W RMS – 131DB SPL

For the VENTIS range, quality and flexibility are the watchwords. Based on a powerful combination of B&C compression drivers and FBT’s own custom, long excursion woofers, the 115, 112 and 110 models are two-way, bass reflex designs housed in 15mm birch plywood. A full-grille design backed by specially treated acoustic cloth delivers the characteristic style for which FBT is known, while fully rotatable constant directivity horns ensure accurate coverage.
