Weight: 25.6 lb / 11.6 kg

GIVE YOUR GIG A LITTLE THUMP

Thump210XT gives you powerful 1400W Class-D amplification in a compact loudspeaker that’s perfect for gigging DJs and bands, venues and more. Packed with incredibly useful features, Thump210XT makes gigs run smoother with feedback elimination and music ducking built right in. And with dual TRS / XLR inputs plus a stereo 1/8” aux input, you can plug in all of your gear without odd cables and adapters.

Bluetooth® Linking and Control

Stream music wirelessly to Thump210XT via Bluetooth® so you can hear your mix from anywhere on the floor. Dive into the Thump Connect 2 App to link two speakers wirelessly, plus adjust anything from system EQ and voicing modes to channel levels and application-specific presets, all in the app.
Application-Specific Voicing Modes

Instantly optimize Thump 210XT for how you use it with 4 application-specific voicing modes: “Music” to enhance pre-recorded music, “Live” for general sound reinforcement, “Club” for a nice low end punch, and “Monitor” for use as a floor wedge.
Indoor / Outdoor Modes

Ever bring your speakers from inside a room to the scary outdoors and wonder why it sounds so different? You’re not alone. Lucky for you, we’ve thought of everything. When you set up Thump210XT out in the wild, just push the Outdoor Mode button and your lovely, full sound is restored.

Feedback Eliminator

Ever get a little too up close and personal with the microphone only to hear a loud, ear-destroying squeal? That’s commonly known as feedback. And it’s an unfortunate issue that physics won’t change its mind on. But wait! Hit the Feedback Eliminator button and laugh in the face of those silly acoustic laws.

Music Ducking

You’ve got music playing nice and loud but, it’s time for another announcement. Sure, you could mess with your levels every time, but who’s got time for that? Simply press the Music Ducking button, and channel 2 will automatically turn down whenever you speak into the mic on channel 1.

Input Flexibility

Dual TRS / XLR inputs plus a stereo 1/8” aux input ensure that you can plug in any combination of audio sources, including guitar, microphone, keyboard, media player and DJ mixer, without odd cables and adapters.

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
