

Mogami 3104 SpeakerCable 4x4mm

Šifra: 19098
Kategorija proizvoda: Na Metar Zvučnički
Proizvođač: Mogami

Cena: 3.000,00 **rsd**

assembly and installation.

The connection of the conductors in diagonal pairs considerably reduces the mutual inductance.

Technical characteristics

Specifications	
Product type	Speaker cable
Conductors number	4
Conductors material	OFC Copper
Conductors section	4mm² (12AWG)
Cable diameter	14.5mm
Insulation / sleeve material	PVC
DC Resistance(20°C)	0.005 Ohm/m
Inductance (1kHz, 20°C)	0.6µH/m
Voltage breakdown	Must withstand at 500V DC / 15s
Color	Black
Quantity	Sold per meter

Mogami 3104 SpeakerCable 4x4mm
The Mogami 3104 cable has been designed to provide high audio performance. It integrates 4 OFC Copper conductors with a cross-section of 4mm² (12AWG) and has an efficient PVC insulation. It therefore ensures excellent conductivity of the audio signal while considerably limiting interference and therefore parasitic noise. It thus ensures a precise and transparent signal reproduction. The PVC sheath also provides very good flexibility for easy
