SOUND
Sound Source

Striving to create the natural and rich resonance unique to grand pianos with the "Multi-Dimensional Morphing AiR Sound Source".

Explore the expressive nuances and seamless changes in tone based on your playing velocity and the passage of time with our "Multi-Dimensional Morphing" technology.

Dive deep into the intricacies of a grand piano's resonance with our meticulously crafted "String Resonance System".

Experience the authenticity of a grand piano with our "Mechanical Sound System", that simulates various mechanical sounds.

Prevent the degradation of the original waveform quality, achieving beautiful and expressive grand piano tones that are generated from a vast array of waveform variations with the "Lossless Audio Compression".

Tones

19 built-in tones including an elegant and glossy grand piano tones with a wide range of dynamic expressions, cherished by pianists worldwide.

Acoustics

Featuring a 2-channel 2-speaker sound system that produces the natural resonance of a grand piano.

The ”Volume Sync Equalizer” allows for balanced sound across all frequencies even when playing the piano at a reduced volume, ideal for home practice during the evening or any quiet moments.

The "Sound Mode" feature allows you to add various effects to the sound that's output from the audio system, enabling you to customize your piano experience to match your own personal taste.

Experience a natural and expansive sound when using headphones with the specially tuned "Headphone Mode".

PLAYABILITY
Keyboard

The "Smart Scaled Hammer Action Keyboard" combines compact, space-saving hammer action mechanisms with digital sound control technology, that offers a rich and expressive touch which varies depending on your playing style and range.

The white keys feature an ivory-like finish, while the black keys have a texture similar to ebony, offering a luxurious and comfortable feel even during extended periods of play.

You can control the timing and nuances of sound dampening not only with your key presses but also the release speed, adding depth to your musical performance.

Pedals

Features three pedals, including a soft pedal and a sostenuto pedal, that enhance the possible range of musical expressions.

EXPERIENCE
Wireless MIDI & Audio Adapter

Utilize the included "Wireless MIDI & Audio Adaptor (WU-BT10)" to wirelessly connect with your smart device, enabling audio playback through the instrument's sound system and MIDI data communication.
