The rear panel of the speaker offers a switchable mic/line level XLR input and an XLR loop-thru output for connecting additional powered speakers. Additionally, the boost EQ switch adds high & low frequencies to the signal, while the two on-board limiters protect the electronics and drivers from overload. The ISO-flex painted birch plywood enclosure offers a flexible, multi-angle design and allows the speaker to double as a floor monitor. Two bar handles are offered for ease in transport, while the steel grille provides ample protection to the loudspeaker's drivers. The D.A.S. Action 12A ships with a power cord.
