Spacious, Open Design: With its open design, the DT 990 PRO has an airy, spacious sound with a sense of depth and ambiance that complements room acoustics captured in recordings. The controlled bass and enhanced treble ensure an exceptionally detailed frequency response. The low frequencies are precise and powerful, without being overbearing, while top end is clear and very present without sounding shrill.

Total Comfort and One-Sided Cable: The sturdy steel headband gives the headset a secure fit. Soft, adjustable ear cups contribute to great wearing comfort for extended periods. The cable, which is attached on just one side, accommodates frequent adjustment and removal of the DT 990 PRO without cable tangles. The 80 Ohm comes with a straight cable (not coiled like the 250 ohm). Its extra light weight construction makes it very easy to wear.
