Quality speaker cable termination

The Pro-Ject Connect it Banana Plugs terminate your speaker cable for a neat and secure connection. Gold-plating ensures a long-lasting and low resistance link with your amp and speakers. Using plugs also makes it much easier to disconnect the speakers if, for example, you need to move them for cleaning or maintenance.

Easy to fit

With a twin-point screw fit, it's easy to fit these plugs – no soldering is required. The plugs accept thicker cables, too, making them suitable for a wide range of different brands.

Make the perfect finishing touch, with the Pro-Ject Connect it Banana Plugs.
