Cena: 62.120,00 rsd

Each Nd7 is meticulously hand-made by our highly skilled technicians. The Nd7 uses our most advanced “fine line” nude diamond profile for the ultimate in detail retrieval. (The same profile is used on our high end MC models the Apheta 3 and Aphelion 2). This profile has an exceptionally small radii Monocrystalline manmade diamond with the minor radius being just 3µm (microns) as viewed from the top and 30µm in the vertical when viewed from the front. This profile allows immediate adjustment to very small changes in the vinyl due to the small contact area of the diamond which results in exceptional levels of detail being retrieved. The design uses brand new generator geometry with perfect symmetry to achieve highly accurate channel balance. The Nd7 also has an optimised pole gap for superior linearity and cross talk characteristics, this provides a far wider soundstage than the previous models. This new cartridge is created with miniaturised parallel coils which are wound in house utilising 38-micron wire with just 1275 turns. This produces a low inductance, low impedance generator giving vastly improved high frequency response. In keeping with our commitment to sustainability, the Nd range is supplied in 100% recyclable packaging.

Key Features
• Fine line nude diamond profile
• Aluminium cantilever
• Neodymium magnet
• Unique generator
• Rega 3 point mounting system
• Highly rigid lightweight PPS body
• Handmade stereo cartridge
• 100% recyclable packaging
• Available factory fitted on the Planar 6 and Planar 8 turntables
• Lifetime warranty against manufacture defects

Technical Specifications
Nominal Output Voltage: 5-6mV
Stylus: Fine line nude diamond profile
Fixing: 3 point fixing
Coils: Miniaturised parallel coils
Window Colour: Yellow
Tracking pressure: 1.75g
