Central Bearing Housing

11 mm self securing brass bearing (Patent Pending) offering improved fit and less stress on the bearing preventing the transfer of potential energy.

Acrylic gloss Skin Plinth / Walnut Effect laminate

High gloss acrylic or walnut effect laminated plinth, stiffer and vastly improved appearance with ergonomically positioned power switch.

Rega Motor

New 24 V low noise, low vibration motor assembly and new PCB.

Platter

New float glass 'Optiwhite' 10 mm - Improved accuracy platter.

Isolation

Re-designed feet - new improved foot assembly to increase stability and reduce vibration transfer.

Cartridge

Rega Carbon cartridge supplied as standard on all Planar 2s for simple plug and play convenience.

Dust Cover

Supplied as standard / optional lid - plinth protectors - supplied to prevent marks on the plinth and keep it looking its best. Walnut effect finish is supplied with the smoked dustcover as standard.

Simple Set Up

Easy to use multi-lingual quick start guide for easy set up.
