DENON AH-D1200 Black

The
AH-

D1200 is an honest over-ear hi-fi headphone for pure music enjoyment. It's solid and comfortable so you can enjoy your music all day without getting tired. If you prefer headphones with cable - because you z. For example, if you do not want to think about battery life and charging, the AH-D1200 is a great friend at a great price.

The large over-ear earpieces have extra large drivers and provide enough volume to build a

pleasant and detailed sound. They isolate well against noise, so you can enjoy music in peace and quiet in the train or in the office, for example. If you like, you can customize the sound to your personal taste with the Denon Audio app.

Created for comfort and

enjoyment of **music** The AH-D1200 spoils with good comfort through and through. The comfortable headband features a horizontal swivel to keep the earpieces snug on the ears, and the ear cushions are made of soft memory foam that adapts to the head for an unmatched fit. Along with the low weight for a full-size headset, you can hear music throughout the day without it squeezing.

The AH-D1200 is solid and classy, with aluminum brackets to accompany you wherever you go. The earpieces are foldable, so you can easily take your headphones with you in the supplied soft transport case in your backpack or suitcase when traveling.

The Denon AH-D1200 is available in black and white. Soft carrying case, iOS control cable and standard cable included.
