"Denon has made tweaks to further this model's sonic authority – and there's no greater praise than it replacing our reference home cinema amp."

The AVC-X6500H features a sophisticated power amplifier section with 11 channels in a monolithic amplifier design for ultimate clarity and power. Each channel is rated at 205 watts and all channels are able to safely drive lower impedance speakers (down to 4 ohms). There's also an Auto Eco mode that adjusts the maximum power available according to the volume level as well as an on-screen Eco meter that lets you see the power consumption reduction in real time.
AL32 Processing Multi-channel provides ultra-high-resolution digital audio filtering and precision for all audio channels, to deliver a natural soundstage with enhanced imaging. For contents recorded in multi-channel such as Blu-ray discs, the recorded low frequency effects (LFE) may be out of synch and delayed. Bass Sync technology corrects such a delay of low frequency effects for the perfect audio experience.

HEOS + Alexa
Image not found or type unknown
HEOS + Alexa

Ask Alexa to play music from Amazon Music, Spotify, and more. You can also turn the volume up or down, pause, mute and play the next song all with your voice. To start streaming with Alexa voice commands, open the Alexa app and select "Skills." Add HEOS Home Entertainment to enable. Then, go to Smart Home in the Alexa app menu and choose Devices and Discover or say "Alexa, discover my devices." With HEOS Home Entertainment and Alexa, you can stream to this product and any other HEOS-enabled device.
DTS:X

Image not found or type unknown

DTS:X
DTS:X immersive audio places sound where it would occur naturally in space, creating a lifelike, multi-dimensional audio experience in the home. The improved immersion and heightened realism draw you into the world of your favourite movies. The included spatial remapping engine, DTS Neural:X, gives your movie, game and music collections a new lease on life! With DTS Virtual:X you can enjoy an 3D audio experience even without installed overhead speakers. DTS:X brings the theatre home.
Dolby Atmos

Image not found or type unknown

Dolby Atmos
Feel every dimension in Dolby Atmos. Dolby Atmos transports you into the story with moving audio that flows all around you with breathtaking realism. Enjoy a 5.2 or 7.2 surround sound speaker

system and 4 additional overhead speakers or 4 Dolby Atmos elevation speakers for the ultimate home theatre experience - including Dolby Surround upmixer for legacy content. Audyssey MultEQ XT32

Audyssey MultEQ XT32
The AVC-X6500H features the most advanced Audyssey MultEQ XT32 room acoustic measurement system including Audyssey Dynamic Volume, Dynamic EQ, LFC and SubEQ HT. Through these technologies, and with the supplied microphone, it exactly analyses each speaker's output to optimize the overall listening experience. With the additional Audyssey MultEQ Editor App (available for purchase), very advanced users can even go further "under the hood" if desired. Latest HDMI Specs

Latest HDMI Specs
All eight HDMI inputs and two HDMI outputs feature HDCP 2.2 compatibility and the latest HDMI specifications, including 4K Ultra HD 60Hz video, 4:4:4 Pure Color sub-sampling, High Dynamic Range (HDR), Dolby Vision compatibility, HLG support and 21:9 video, 3D, and BT.2020 pass-through support. It is even ready for Enhanced Audio Return Channel (eARC) for 3D audio broadcast over TV. Experience HEOS

Experience HEOS
Enjoy your favourite

music anywhere – and everywhere – around your home. Share music stored on your home network, Internet radio or streaming services with HEOS wireless speakers, or even other HEOS-capable receivers, throughout the house. Control it all with the free HEOS app. Enjoy music from Spotify, TuneIn Internet radio, Amazon Music, Sound Cloud, Tidal, Napster or Deezer.
HDR / Dolby Vision

Image not found or type unknown

HDR / Dolby Vision
The AVC-X6500H supports High Dynamic Range (HDR) video format. It is even Dolby Vision compatible and supports HLG (Hybrid Log Gamma). Dolby Vision transforms the viewing experiences with astonishing brightness, contrast, and colour. HLG offers HDR technology over broadcast content.
Advanced Video Section

Image not found or type unknown

Advanced Video Section
The AVC-X6500H owns an advanced video processor to upscale existing lower resolution video from any analogue or digital source to true 4K. With three HDMI outputs, you can even connect a TV and a projector in the main room, while playing back different content on a second zone screen.
Connectivity

Image not found or type unknown

Connectivity
The AVC-X6500H is equipped with an advanced dual antenna system for robust and error-free streaming, featuring Bluetooth and

Wi-Fi connectivity as well as Apple's AirPlay 2 for direct music playback from Apple's iDevices.
32-Bit D/A Conversion

32-Bit D/A Conversion
For optimum fidelity and the widest dynamic range with lowest distortion, the AVC-X6500H features advanced reference-class 32-bit AKM AK4458VN D/A converters on all channels. This ensures consistent high fidelity and precise channel matching across all channels for the ultimate listening experience.
Powerful DSP

Powerful DSP
The AVR owns a sophisticated DSP audio processing system that incorporates no less than 4 powerful high speed fourth generation SHARC DSP processors, which together have a combined continuous processing capability of 10 GFLOPS (10 billion floating point numerical computations per second).
Auro 3D

Auro 3D
Auro-3D elevates the home theatre experience to amazing new levels by delivering the excitement of three-dimensional sound for music, games,

broadcast, and films while enhancing your existing audio-visual collection, thanks to Auromatic up-mixing engine.
High Res Audio

Image not found or type unknown

High Res Audio
The AVC-X6500H features high resolution audio decoding with multiple lossless file types including ALAC, FLAC and WAV at up to 24-bit/196-kHz along with compatibility for 2.8/5.6-MHz DSD files (DSD is the audio coding format of SACD).
App Control

Image not found or type unknown

App Control
With the "Denon AVR Remote" app you can control the receiver's operation and even control your connected Denon Blu-ray player. With the HEOS app you easily command your music and multi-room streaming.
Perfect Set Up

Image not found or type unknown

Perfect Set Up
The AVC-X6500H easily guides you through the set-up process to ensure the most accurate configuration. Optimize all settings for the best possible sound and video quality with your system.

11.2 channel AV Amplifier with 205W per channel - 11 powerful amplifiers in a monolithic design for ultimate clarity and power

Supports Dolby Atmos, DTS:X, Auro-3D and DTS Virtual:X - Enjoy a truly immersive, three-dimensional audio experience
