Our CSE HH 5e PUR data patch cable features our CCAT 5e PUR bulk cable and HIROSE® RJ45 connectors. Equipped with a flexible AWG 26/19 inner conductor and a special TPE-V stabilizer, the cable is ideal for the use with audio networks, lighting control and EtherSound™ systems.

This cable does not only excel because it is reelable and exceptionally robust but also because it offers high flexibility and a tight bending radius. It is the ideal choice for patch cables, device connection cables and mobile applications, stage operations and outdoor transmissions as well. The cable supports the PoE IEEE 802.3af-2003 standard (15.4W).
