

DENON AVR-X550BT Black

DENON AVR-X550BT Black

Šifra: 13125

Kategorija proizvoda: AV Pojačala i Risiveri

Proizvođač: DENON

Cena: **51.480,00** rsd

With 130 watts of output power on each of the 5 separately mounted amplifier channels, the 550BT has more than enough power to turn your living room into a real small cinema with a 3D sound experience. Dolby TrueHD and DTS-HD Master Audio deliver precise sound. You can connect a 5.2 speaker setup to the 550BT. This means two front speakers, which you place to the left and right of the TV, a center speaker placed below or above the TV, and two surround speakers, which you can best build on the left and right behind the sofa. In addition, there are two subwoofers that you can set up relatively freely in the room, as bass-waves spread in a spherical shape and you can hear them well from almost anywhere. You can find speaker sets from various companies, which in their sound sometimes quite different. Just ask us via chat, email or phone if you are unsure which to choose.

If you like streaming music over Bluetooth from your smartphone: The 550BT can remember up to eight phones, so you can play with friends and family together quickly and without long configuring your favorite songs. With the 5 HDMI inputs you can connect all kinds of devices such as DVD players, consoles and so on.

The 550BT offers the following advantages over Denon's second entry-level model 250BT: With 2 subwoofers you can boost the bass sound for music and movies even more and create even more impressive soundscapes. The microphone with included tripod is used by the 550BT to adjust the sound to different sitting positions on your sofa. The 550BT automatically adjusts the speaker's response to your room and seating position for the best possible sound.
