Space-saving patch cabling is especially important for complex pedal board constructions. The CFIP RR with its two rectangular flat pancake jacks does not protrude more than 1 cm from the 6.3mm jack socket. The bulk cable is particularly space-saving with a diameter of less than 6 mm and still offers solid inner values: 0.22 mm² conductor area and a shielding made of spiral copper wires for unaltered signals. The most space-saving solution from the
