

DENON DCD-800NE Black CD Player

DENON DCD-800NE Black CD Player

Šifra: 12881
Kategorija proizvoda: CD Plejeri
Proizvođač: DENON

Cena: **51.480,00** rsd

Advanced AL32 not found or type unknown

Advanced AL32
The DCD-800NE is equipped with Advanced AL32 Processing Plus, the latest in analogue waveform reproduction technology from Denon. Advanced AL32 Processing Plus utilises data interpolation algorithms, which support high-resolution audio sources. The algorithms add in the points that should exist before and after large quantities of data, smoothing out the waveform and restoring information that was lost during the digital recording.

DAC Master Clock not found or type unknown

DAC Master Clock
To accurately synchronise digital circuits, the DCD-800NE is built with a DAC Master Clock design that treats the DAC as the master when clock signals are supplied. Crafted with exceptional quality, the master clock is immediately adjacent to the DAC, which suppresses jitter and ensures optimal precision in D/A conversion. It serves as the reference for semiconductor operation and optimises

digital audio circuitry.
High-Resolution USB

Image not found or type unknown

High-Resolution USB

Enjoy extended disc and USB support for your modern high-resolution audio collected. The DCD-800NE plays back your CD's, CD-R/RW, MP3 and WMA formats. Or, plug in your USB to hear DSD 2.8 MHz/5.6 MHz in high-resolution. Listen to your favourite modern hi-res formats and feel the powerful fidelity DCD-800NE provides.

Built To Last

Image not found or type unknown

Built To Last

With more than a 100-year legacy of designing premium audio components, trust that your Denon product has undergone rigorous testing. The overall aesthetic, sound quality and design integrity of DCD-800NE and its Hi-Fi components are built to last.

Pure Direct Mode

Image not found or type unknown

Pure Direct Mode

Listen with Pure Direct Mode on the DCD-800NE. Pure Direct Mode feeds sound directly to the amplifiers, bypassing any processing that might otherwise colour the signal. What you hear is clean, detailed, accurate sound.

Digital Output

Image not found or type unknown

Digital Output

The DCD-800NE features one Optical and one Coaxial digital output to connect to the digital input of an amplifier or AV receiver.		
Advanced AL32 Processing Plus and Ultra Precision 192kHz/32bit D/A Converter - Accurate playback that's faithful to the original recording	Extended disc support for modern hi-res audio - Play all of your music on CD and CD-R/RW (MP3, WMA)	Supports hi-res audio experience
	Impeccable sound engineering with carefully selected and rigorously tested Hi-Fi parts - Enjoy the exceptional sound that is the signature of all Denon Hi-Fi products	Direct Mode - resists distortion
	DAC Master Clock Circuit Design - Ensures jitter-free audio reproduction	Circuits originate from original
	Pure Direct Mode - Clean audio output and accurate, detailed sound	Engineered audio system
