Joe Bonamassa might just be the biggest blues guitarist of the modern era. He's also something of a gear guru whom players of all varieties look to for incredible tone and technique—and for good reason. The Joe Bonamassa Signature Slide is yet another piece of evidence for Joe's impeccable taste for tone and playability.

Made from stainless steel with a slick custom finish, this slide is lightweight and medium in size—perfect for getting around the fretboard and accentuating electrifying blues licks with ease.

"I learned slide from guys like David Lindley and Ry Cooder," Joe says, "but this black chrome Dunlop Slide is my voice, inspired by the guys that came before me."
