General : Weight (kg)	6.5
General : Color	aluminium
Stand & Truss : transport height (cm)	150
Stand & Truss : tube Ø	20 mm
Stand & Truss : truss type	trio

Very compact but very sturdy steel truss, section 150.

The steel tubes each have a diameter of 20mm and are galvanized to create a beautiful, shiny silver look.

Perfect for mobile applications (DJ Light bridge).

Also very nice as an elegant support for attaching PAR16/20/30/36 projectors in modern interiors.

Maximum allowable span: 6m

Maximum distributed load:

250kg at maximum 3m span

80kg at maximum 6m span

Maximum point load:

120kg at maximum 3m span

50kg at max 6m span

Length = 1.5 m

Comes with couplers included.
