DENON DSB50 Envaya Black Bluetooth Zvučnik

The Ultra-portable Envaya pocket holds its charge for 10 hours, depending on volume level. Tuned by Denon's class leading audio engineers, each speaker has been painstakingly crafted to achieve an unmatched musical performance. Simple connectivity and Siri activation allows you hassle free, complete control, from your smartphone.

Superior Sound

Extraordinary sound quality is further improved due to the inclusion of advanced audio processing technology, bigger size drivers and more powerful amplifier modules. The sound produced is above and beyond anything that conventional compact speaker systems deliver, thanks to 'oversized' proprietary drivers paired with a large passive bass radiator that fit neatly into this speaker's compact design.

Waterproof and durable

Waterproof and durable
Denon Envaya is Water and Dust Proof. The official rating is called IP67, which means that the Envaya Pocket can stand in 1m of water for 30 minutes without damage. To achieve this all connectors are covered by a cap, gaps are closed by gaskets and chassis are water resistant which means altogether no water can enter the unit for a certain period.

Bluetooth AptX

Bluetooth AptX
The Envaya features the high quality Bluetooth aptX Low Latency standard offering CD-like audio streaming over

Bluetooth, minimizing latency and ‘lipsync’ issues when supported by the streaming device.

 Bluetooth pairing mode unknown

Bluetooth Pairing

Out of the box and powered on for the first time, the unit will directly enter the pairing mode. Simply open the Bluetooth setup on your smart device and confirm the Envaya pairing. If at a later stage, you want to pair another unit just press the Bluetooth button on the unit for a second and you are ready to play. Pressing and holding the button for 5 seconds will enable the stereo pairing mode.

 Link not found or type unknown

Envaya Link

Looking for more power or just want to have a real stereo setup? No problem. Just pair two of the Envaya’s to play together as a stereo set. One speaker will take over the left channel, the other the right.

 Making Phone Calls and talking to 'Siri' unknown

Making Phone Calls and talking to 'Siri'

The built-in microphone makes hand free calls an easy task. Once connected by Bluetooth to your smartphone you are ready for that. In addition, you can also talk to your personal assistant “Siri” on an iPhone. Just press and hold the phone button on the Envaya and Siri will activate.

Specification
