Powerful And Detailed Sound

Powerful And Detailed Sound

The advanced amplifier section incorporates Qualcomm DDFA technology for a amazing sound from a compact form factor. The output stage circuit has a discrete construction which realizes higher Signal-to-Noise-ratio and lower distortion compared to conventional class D amplifiers. This advanced amplifier system delivers superior audio fidelity along with high amplifier efficiency at 50W into 4 ohms. The premium grade multi-way speaker connectors let you connect speaker cables via bare wire, pin connectors as well as banana plug connectors.

Unique Denon Audio Processing

Unique Denon Audio Processing

For the ultimate fidelity with your favourite digital audio tracks, the PMA-60 features Denon's Advanced AL32 digital audio processing system. Featured on Denon's premium audiophile disc players and digital audio components, Advanced AL32 processing

High Quality Headphone Output

For top audio fidelity the
PMA-30 is equipped with a
dedicated headphone
amplifier circuit that
features a high speed
ultra low distortion
wideband op amp that's
paired with a fully
discrete final output
stage. In order to
accommodate the widest
range of headphone
types, the PMA-30
features an adjustable
headphone impedance
control, with 3 settings for
low, medium and high
impedance headphones
which provide proper
matching of headphone
impedance and amplifier
gain. The headphone jack
features a 6.3mm
connector for
compatibility with
premium home and
professional studio
headphone models.
Pure Class Elegantly Designed

Pure Class Elegantly

Designed

The Denon Design Series stands out, thanks to its combination of soft-look aluminium, bright silver tone accents and a mixture of glossy and matt black surfaces. Crisp OLED displays tell you all you need to know at a glance, using icons and text. And the PMA-60 and DCD-50 make a real statement also when used horizontally or vertically.

Bluetooth With aptX Low Latency
