Proizvođač: Electro Harmonix

Cena: 11.880,00 rsd

• Compact, yet feature laden overdrive and distortion pedal
• Create sounds ranging from boost without the grit and sweet crunch all the way to intensely saturated overdrive and thick distortion
• 3-position input level switch lets you set the initial input gain level for a variety of instruments including guitar, bass and keyboards
• Active 3-band EQ for superlative tone shaping
• In Normal Mode three amp-like JFET gain stages provide low to medium gain sounds
• In the switchable Boost Mode a classic pedal-style overdrive circuit is added before the JFET stages to increase overall distortion
• The pedal’s Dry blend control is especially useful for bass and keyboards because it lets you retain your instrument’s articulation, harmonic content and bottom end
• Power adapter included
