Electro Harmonix POG3 Polyphonic Octave Generator

Šifra: 20794
Kategorija prozivoda: Pedale
Proizvođač: Electro Harmonix

Cena: 74.280,00 rsd

Featuring 6 voices including DRY, -2, -1, +5th, +1, & +2, you can mix each with individual sliders and create enveloping stereo effects with dedicated pan knobs and selectable LEFT/RIGHT/DIRECT outputs. The effects section has been expanded to offer envelope control and adjustable Q for the new multi-mode FILTER, enhanced DETUNE section with SPREAD, and individual DRY effect selection, plus the famous ATTACK slider for subtle or dramatic swell effects. All voices, effects, and additional features are now controllable via expression and MIDI for even more creative control. Unlock new expression effects including Freeze, Glissando, Volume, Filter, X-Fade, and Warp with advanced programming and performance controls. The INPUT GAIN slider is an old friend from the original POG that can add girth and dirt to your tone mix.

With all of this fresh tone creation power on tap, additional storage and editing options simply workflow and sound saving capabilities. 100 onboard presets can be saved and rearranged easily thanks to the POG3’s high-visibility OLED display and NAVCODER knob. The EHXport desktop app also allows for easy preset storage and organization as well as streamlined preset editing on your PC or MAC.
