If you need plug-to-plug connections for audio interfaces, monitors or for amp to speaker links, our CPL PP speaker cable comes in handy. The two conductors, each with a 1.50 mm² conductor area, enable loss-free transmission from the amp to the box.

It features 1/4" NEUTRIK® mono plugs to connect passive speakers (e.g. for connections from speaker to top - max. 48 volt!). These budget-priced but still top-class speaker cables should be stocked for any kind of studio or stage operation.
