Control your sound. Change your location. Connect to anything.

Tone Control
Use the tone control knob to shape the sound, starting with the transparent response you expect from studio monitors. Turn the knob to gradually boost the bass and add high-end sparkle, perfect for using CR4.5 as immersive gaming speakers, casual listening speakers or all-out party speakers.

Location Switch
Flip the location switch between desktop speaker mode and bookshelf speaker mode to optimize CR4.5 for wherever you place them. Use desktop mode for listening up close (like in the studio) and bookshelf mode for listening at a distance (like from the couch).

All the Ins and Outs
Hook up audio interfaces, mixers, record players and other playback devices with TRS, RCA and 3.5 mm inputs. Switch to headphones with the built-in headphone output - just connect your headphones to cut the speaker audio and listen quietly.

HEADPHONE OUTPUT
Switch from blasting tunes to quiet listening with the built-in headphone output conveniently placed right up front— just connect your headphones to cut the speaker audio.
