### Features

#### • **Compact Expressive Keybed:**

25-key synth-action keybed designed for responsiveness and tactile control, ideal for mobile music production or tight studio setups.

#### • **Seamless DAW and Plugin Control:**

Custom Nektar DAW integration plus Native Instruments NKS compatibility provide deep control of your software instruments and effects.

#### • **Performance Enhancing Features:**

Scale, Chord and Hold functions ensure inspiring and musically correct performance, even with limited keyboard skills.

### **Creative Performance in a Portable Package:**

The LX25 mk3 brings serious performance features to a mobile-friendly size. You can play full chords, stay in key with Scale mode, or trigger loops and instruments via 8 responsive pads. Whether you're producing on the move or in a tight workspace, the LX25 offers intuitive control and professional results without compromise.

### **Hands-on Control and Integration:**

Designed with DAW workflows in mind, the LX25 mk3 features 9 full-resolution encoders, including a global encoder, for hands-on control. The controller integrates with major DAWs like Cubase, Logic, FL Studio and more, offering transport control, mixer functions and instant plugin mapping, with no complicated setup.

### **Build Quality and Software Support:**

Despite its light weight, the LX25 mk3 is built tough enough for touring or daily use. It comes bundled with Bitwig 8-Track, NI Komplete Select 15 and MOK Miniraze, providing a complete music production toolkit from day one. USB-C connectivity ensures reliable performance across modern systems.
