For the CD lovers

Engineered for discerning listeners, the Onkyo C-30 features Onkyo's exclusive VLSC (Vector Linear Shaping Circuit)—a proprietary technology that removes pulse noise from the signal path using advanced algorithms. The result is a clean, distortion-free analog output revealing every nuance of your music with breathtaking clarity.

Timing precision

A high-precision ± 10 PPM clock ensures remarkable timing accuracy and a focused, stable stereo image, elevating your listening experience to true high-fidelity standards.

Effortless system integration

On the rear panel, Hi-Fi-grade RCA, optical and digital coaxial outputs ensure effortless integration with high-end audio systems.

Reducing resonance for the cleanest playback

Engineered for exceptional sonic purity, the Onkyo C-30 CD Player boasts a vibration-resistant, blast-finished aluminum front panel designed to reduce resonance and deliver cleaner playback for a natural sound.
