Cena: 23.880,00 rsd

THE STUDIO LEGENDS

For decades now, professional users all around the world have placed their trust in our classic range: DT 770/880/990 PRO. These benchmark-setting studio headphones, available in three different models, boast extremely detailed resolution and very transparent sound.

The DT 880 PRO is the semi-open-model in the classic range and offers impressive natural and neutral sound.

BENCHMARK FOR STUDIO SOUND

The wide stereo image, neutral sound and the extremely high resolution make the beyerdynamic DT 880 PRO headphones a reliable benchmark-setter for studio use. They are a recognised tool amongst sound enthusiasts and a loyal companion for producers. As stereo headphones they help professionals pick up on errors immediately making them ideal for mixing and mastering.

TOP-NOTCH IMPULSE RESPONSE

The semi-open-back design means that these headphones offer unparalleled spaciousness. They reproduce audio tracks neutrally without changing the tone of the sound. This allows optimum vocal positioning in mixing and ensures every slightest nuance is transparently reproduced.

EXTREME COMFORT

The robust spring steel headband design ensures that the over-ear headphones offer a secure fit. The single-sided cable allows the headphones to be put on and taken off frequently without cables getting tangled, and soft, adjustable ear cups provide for added comfort.

DIFFERENCE COMPARED TO THE DT 880 EDITIONVERSION

The DT 880 Edition headphones for use at home and the DT 880 PRO studio headphones: soundwise, both models are identical as they feature identically designed acoustic transducers.

There are fundamentally two differences between the models. Firstly, the Edition models have a somewhat softer headband for enjoying music at home whereas the PRO headset has a slightly firmer fit. Secondly, the Edition models come equipped with a straight cable whereas the PRO models come with a coiled cable.

DURABILITY

One aspect that sets our products apart from the rest is that they are handmade in Germany. We are particularly proud of the durability of our products, because all the components used are replaceable if necessary.

MADE IN GERMANY

As with all beyerdynamic professional studio headphones, the DT 880 PRO headphones are also handcrafted in Germany. The materials and component parts used are made by hand and can be replaced if necessary.
