Rega Replay

Šifra: 23611
Kategorija prozivoda: Gramofoni
Proizvođač: Rega

Cena: 41.880,00 rsd

Key Features
• Skeletal design low mass plinth
• EBLT Advanced drive belt
• RB110 handmade tonearm
• Factory fitted Carbon moving magnet cartridge
• Phenolic resin flywheel effect platter
• High-quality 24V low noise synchronous motor
• Removable custom dustcover with anti-rotational device
• Lifetime warranty against manufacture defects

Tonearm
Replay uses the latest generation of RB110 tonearm built using Rega designed, bespoke, ultra-low friction bearings (patented). The RB110 design includes a factory pre-set non adjustable bias setting negating the need for the user to set bias . The RB110 headshell has been ergonomically, designed for improved usability and appearance. A 111 g ‘plug & play’ balance weight is included.

24 V Synchronous Motor Module
Replay uses our bespoke 24 V synchronous AC all in one low noise low vibration motor module. The module includes a new PCB, CNC machined aluminium pulley, an integrated power switch, power input, rear foot and inbuilt ventilation.

Plinth
High rigidity, laminated low mass skeletal design plinth with black MDF core.

Cartridge
Rega Carbon cartridge supplied fitted as standard. Each cartridge is meticulously fitted and perfectly aligned to guarantee optimum performance straight out of the box.

Central Bearing Housing
Performance brass main bearing, offering improved fit and removing stress on the bearing itself whilst minimising the transfer of potential energy (patent pending).

Platter and mat
23 mm, higher mass, phenolic platter with improved flywheel effect for improved speed stability and custom white mat. The mat design has a different texture on one side to optimise grip to the textured platter surface.

Isolation
Our latest design foot assembly increases stability and reduce vibration transfer.

TECHNICAL SPECIFICATION
Tonearm: Hand assembled RB110 with 111g balance weight
Cartridge - (Factory fitted and aligned): Rega Carbon Moving magnet (replaceable stylus)
Hub bearing assembly: Factory sealed precision main bearing
Selectable Speeds: 33 1/3 and 45 RPM manual selection via drive belt
Motor: 24V Low noise syncronous motor
Dimensions in MM (with lid fitted) H x W X D: H 115 x W 415 x D 320

Weight: 2.2Kg
Power Supply: Rega PS2 100ma power supply
Tonearm Connectivity: Phono RCA cable with internal earth via left channel.

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
