

FOCAL Aria 948 Noyer

FOCAL Aria 948 Noyer

Šifra: 11371

Kategorija proizvoda: Podnostojeći Zvučnici

Proizvođač: Focal

Cena: **215.880,00** rsd

The Aria 948 symbolises the return of the true acoustic loudspeaker. A new type of 3-way loudspeaker with 8 1/4" (21cm) speaker drivers effortlessly providing intense and controlled bass. The intention was a return to the very essence of acoustics for those who are passionate about music. This is the ultimate loudspeaker of the range for rooms measuring from 320ft² (30m²) and from a recommended listening distance of 12ft (3.5m).

TNF Tweeter or type unknown

TNF Tweeter

For the TNF tweeter, Focal have brought two major evolutions to their aluminium/magnesium tweeter. The suspension between the dome and its bracket uses Poron, a material with shape memory. The inverted dome's spatial characteristics and very low directivity already make it greatly superior. The frequency response has a variance of +/- 0.5 dB. This performance guarantees an incredibly stable sound stage which makes the listening position much less critical.

Flax Cone

Image not found or type unknown

Flax Cone

Focal cones are made of high-quality flax fibres core enclosed by two thin layers of glass fibre. They satisfy the key criteria of a high performance diaphragm high internal damping, high velocity of sound and high flexural rigidity. The cones are characterised by their natural sound, with low colouration, their richness of reproduction in the midrange

register and their
tighter bass.
Sandwich Technology

Image not found or type unknown

Sandwich Technology

Flax is twice as
light as fibre
glass, because
the fibre is
hollow. It is
aesthetically
beautiful and
also has very low
elasticity which
makes it ideal to
increase the
flexural rigidity
of a sandwich
structure.

Moreover, it can
be obtained in
non-woven
bundles of
considerable
diameter and it
can therefore
produce the
thickness
required for a
sandwich.

Aria Design

Aria Design

Aria has been
conceived as an
elegant piece of
home furnishing;
simple, with
great stature,
quality materials
and soft shapes
which capture
the light and
resist the
passage of time.

The glass on its
upper face for
strength, the
leather finish to
its front face for
its absorbent
and acoustic
diffraction
qualities.

Best Buy

" The music is full of energy, as full as it would be in the front row of a jazz club"... "Bass goes deep, deep enough to even satisfy movie lovers, the high frequencies are detailed and smoother than I would have expected coming from a Focal inverted dome and the midrange is brilliant at this price."
